U.S. Army CECOM Life Cycle Management Command

The U.S. Army Communications-Electronics Command (CECOM) provides **The Critical Link** to enable our Armed Forces' ability to achieve dominance on the battlefield by contriuting to a globally-networked, agile and responsive Force. CECOM's services drive C4ISR readiness worldwide and enable the network that links our Armed Forces and Allies, at all echelons, to facilitate Joint Force communications and sychronization efforts.

Army Spc. Bretton Key, Charlie Company 116th Brigade Support Troop Battalion signal systems support specialist, and Army Spec. Gerald Gee, Joint Task Force Headquarters, J6, information technology specialist, set up satellite communications during a CECOM communications Exercise at Aberdeen Proving Ground, Md. (Photo by Andricka Thomas)

Comprise of aproximately 13,000 personnel, CECOM's mission is to develop, provide, integrate and sustain the logistics and readiness of C4ISR systems and mission command capabilities for the joint, interagency and multinational forces worldwide.

CECOM applies four core compentencies to our core functions as it conducts its mission and strive to achieve our vision of being the life cycle provider of CHOICE in the C4ISR community.

As an AMC major subordinate command, CECOM was first established as the U.S. Army Electronics Command on Aug. 21, 1963, then designated the Communications-Electronics Command in 1981, and was redesignated as the CECOM LCMC in 2005.

As a life cycle management command, CECOM plays an integral role in the C4ISR community by providing global support such as training, reset, sustainment, maintenance & overhaul, field support, logistical expertise, infomratin and softare assurance and interopaerability and certification activities. Collectively responsible for the life cycle of C4ISR systems, the Army Materiel Command and the Assistanct Secretary of the Army for Acquisition, Logistics and Technology work together to comprise the C4ISR Center of Excellence at Aberdeen Proving Ground, MD.

CECOM Centers and Commands
- Central Technical Support Facility (CTSF), Fort Hood, Texas
- Logistics and Readiness Center (LRC), APG, Md.
- Software Engineering Center (SEC), APG, Md.
- Tobyhanna Army Depot (TYAD), Tobyhanna, Pa
- U.S. Army Information Systems Engineering Command (USAISEC), Fort Huachuca, Ariz.

CECOM Core Competencies
- Develop
- Provide
- Integrate
- Sustain

CECOM Core Functions
- Depot-Level Manufacturing, Repair and Overhaul
- Field Support
- Interoperability Certification
- Logistics, Sustainment Planning and Execution
- Software Sustainment
- Supply Chain Management
- Systems Engineering and Integration
